

C4 Hot Stamping Foil

DATE CODING

Overview

A premium quality hot stamping foil specifically designed for date coding of packaging films and label stocks.

Please note: Only available in black and white

Characteristics

An extremely versatile date-coding and pricing foil demonstrating quite exceptional adhesive properties, especially on today's less print receptive substrates.

This high speed, non-toxic series produces well defined codes and offers one of the highest levels of durability and rub resistance available throughout difficult chill or deep freezing conditions

Applications

- Virtually all packaging films, including laminates
- Coated and uncoated papers and boards

Technical Specifications

PET Film Thickness

- 12 micron carrier

Stamping Temperature

- Vertical: 95 - 125°C
- Cylinder: 130 – 145°C

Storage Shelf Life

12 months under normal conditions (10-35°C, below 60% RH)
