

# EG Hot Stamping Foil

---

## GLOSS PIGMENT

---

### Overview

High gloss pigment foil

### Characteristics

An opaque, high gloss and easy releasing foil capable of simultaneous fine line and solid area coverage. The formulation demonstrates good abrasion resistance on the more difficult plastics and graphics substrates with either metal or rubber die. Works well over dark backgrounds

### Applications

- Graphics
- Coated and uncoated papers and boards
- Metallised films
- PVC, PU, PS, Acrylic
- Leather
- Wood

### Technical Specifications

#### PET Film Thickness

- 12 micron carrier

#### Stamping Temperature

- 95°C – 170°C

#### Storage Shelf Life

12 months under normal conditions (10-35°C, below 60% RH)
