

MET Hot Stamping Foil

PREMIUM METALLIC

Overview

As well as being an excellent general graphics product for use on a wide variety of inks, varnishes and laminates, MET has some unique characteristics which distinguish it from all other hot stamping foils.

Characteristics

- Superb adhesion to problematic PP and Matt PP laminates
- Laser printer compatibility
- Exceptional brightness, colour uniformity and resistance properties
- Over printable
- Exceptional workability
- Variety of transfer methods including platen and cylinder

Applications

- Ordinary paper
- Printed paper
- Vinyl coated paper
- UV coated paper
- Aluminium laminate
- PVC and PP

Technical Specifications

PET Film Thickness

- 12 micron meters

Stamping Temperature

- 85 – 120°C

Storage Shelf Life

12 months under normal conditions (10-35°C, below 60% RH)
