

OS Plus Hot Stamping Foil

METALLIC

Overview

Innovative quality grade of original OS series. Recently developed universal adhesion foil for various kinds of substrates including printed papers, unprinted papers and a variety of OPP laminated papers with good workability

Characteristics

- Excellent adhesion properties on printed, non-printed and varnished papers
- Easy make Ready
- Excellent workability on various stamping machines
- Suitable for both fine line and large detail
- High heat resistance
- High gloss level
- Suitable for all types of stamping machines

Applications

- Folding cartons, cosmetic packaging, liquor and confectionery industry, cigarette packaging, film packs, greeting cards, labels and general graphic applications

Technical Specifications

PET Film Thickness

- 12 micron meters. Total thickness including coating layer: 14-15 micron meters

Stamping Temperature

- Vertical: 90 - 120°C
- Cylinder: 130 -160°C

Storage Shelf Life

12 months under normal conditions (10-35°C, below 60% RH)
